2,5 -HOUR GUIDED CITY TOUR

PORI - GUIDED BUS TOUR & SHOPPING

During the tour you will see and also visit some highlights — get to know the unique old and beautiful city districts near the riverbank, the Jusélius Mausoleum and the Keski-Pori Church. The Jusélius Mausoleum in the Käppärä cemetery is one of the most popular sights in Pori. The mausoleum was built by local businessman Fritz Arthur Jusélius (1855–1930) for his daughter Sigrid (1887–1898) to be her last place of rest. Sigrid died of tuberculosis at the age of eleven. The famous Finnish artist Akseli Gallen-Kallela painted the interior including frescoes. The original frescoes were destroyed by fire in 1931. They were repainted by Gallen-Kallela's son Jorma Gallen-Kallela in 1933–1939 and the mausoleum was opened again in 1941. The Central Pori Church is the oldest and largest church in the Evangelical Lutheran Parish of Pori. The church was built in 1859–1863 based on Carl Johan von Heideken's drawings. FINNISH FOREST AND MAGIC

WELLBEING TRIP TO THE NATURE AND MYTHOLOGY

Finland's Nordic Taiga forests are full of wild food, and during this trip you will forage for seasonal wild berries, mushrooms and herbs – the fresh, clean and powerful fruits of the forest. Research tells us about the many benefits of immersing ourselves in nature and spending time in the forest. More than 70% of Finland is covered in forest, making it the world's most forested country. Its forests are large, well-cared for and peaceful places for everyone to enjoy. Finnish people place great importance on their freedom to roam, which ensures that everyone can wander, pick berries and mushrooms, fish and camp in the forests for free. Enjoy peaceful wandering in the forest, allowing it to fill you with peace and silence. Take a little break and lay or sit down on the moss to relax. It will reduce your blood pressure and give you peace of both mind and body. After one hour of guided and relaxing hiking we will go the Lappish-style teepee hut for a break. You will have the possibility to taste seasonal forest fruits. Coffee and wild herbs infusion brewed over an open fire will be served with seasonal pie. That will give you the taste of Nordic nightless nights. Long daylight hours give a magical and strong taste for all the berries and plants.
